**Subject:** Council agenda item C.1

Good morning,

Sorry for the late email. I am sure you have heard from a number of people on the Barnsdall Gas Station and the reasons for not approving the current transfer agreement. The staff report is inadequate and it is not a good deal for the City. I will state the reasons for asking for denial at the meeting this afternoon. Please do not approve this transfer agreement.

Thank you, Barbara

Mayor and City Council  
City of Goleta, California

Honorable Mayor and Council

Reina del Mar Parlor No. 126, Native Daughters of the Golden West, expresses our support of the acquisition by the city of Goleta of the Barnsdall/Rio Grande gasoline station and its property. This is a very important historic and architectural site to the area, and we are happy to offer our encouragement and assistance in perpetuating its significance.

The current owners are performing a great act of civic responsibility and generosity in transferring ownership to the city. Our organization has urged preservation and recognition of the former gasoline station for many decades. It holds a special place in the hearts of area citizens.

Reina del Mar Parlor offers to help provide a historical marker (plaque) on this important property at the appropriate time. We have placed several markers in this area over our long history in Santa Barbara County. We will work with our statewide organization's committee in this endeavor.

We look forward to your favorable action.

Sincerely,

Officers and Members of Reina del Mar Parlor
