Subject: D.3 21-469 Flavored Tobacco's

Dear Mayor and Council,

I see you're having to consider the petition to once again allow the sale of flavored tobacco products. I'm so sorry, but I inadvertently signed that damn petition. I really felt it was presented to me as a petition against flavored tobacco products. I normally read these things carefully, but I couldn't have this time. I sincerely feel I was played so that they could get another signature. You may read this in your meeting if you think it's of any value.
