Hi,

If the RHNA doesn't recognize Group Quarters as Housing Units, is the city able to push back against UCSB, SBCC, and other local colleges who don't provide sufficient housing for their nearly 40,000 combined student body? Many units in Goleta are fully rented by students, so they could technically be counted as unofficial dormitories. How many RHNA units could be freed up if the schools actually housed them? Is their proliferation in to the community accounted for at all, does it affect the measured Housing Need in our area?

Thank you for your time.
