Subject: Cannabis tax measure language (June 5th evening session) (G.1)

I'm writing to request more specific language for the Goleta cannabis tax measure. As an example, the County's ballot language for its tax measure is listed below:

Measure T 2018

"Shall the measure adding Chapter 50A to The Santa Barbara County Code imposing a Cannabis Operations Tax on cannabis operators within unincorporated areas of the County upon their gross receipts with rates of 1% on nurseries and distributors, 3% on manufacturers, 4% on cultivators and 6% on retailers and microbusinesses, estimated to raise \$5 to \$25 million annually for general governmental purposes such as law enforcement, health care, parks, roads and others, with no end date, be adopted?"
