Countywide Recreation Master Plan

SBCRecPlan.com

- South Coast has the most diverse age range in the County,
 - 54.3 in Mission Canyon (highest in the County) to 21.4 in Isla Vista (lowest in County)
- High proportion of children in the three cities, high proportion of seniors in the unincorporated communities
- Disadvantaged communities in cities, Eastern Goleta Valley, and Isla Vista indicate a need for affordable recreation opportunities

SOUTH COAST – GOLETA TO SANTA BARBARA

- Local and regional parks between Goleta and Santa Barbara are generally well distributed – City of Goleta (19%), EGV (14%), IV (9%), and City of SB (34%) of total South Coast parks
- However, there are pockets in EGV and the cities where there are no parks in close proximity to neighborhoods
